

Blending Perfection

SeneCeuticals™ Brush Collection by SeneGence®

To be a professional artist you must start with the proper tools. These are the tools for creating your works of art.

A professional is always prepared. Her faithful tools are the essential ingredients for combining and applying any complementing palette. Begin with a canvas; end with a portrait of blending perfection.

Every artist needs her brushes for blending. Create your living works of art with the exquisite new professional SeneCeuticals™ Brush Collection by SeneGence®. The hand-selected eleven piece set features a brush for every SenseCosmetics™ need, includes additional applicators and is packaged in a classic black carrying case.

The SeneCeuticals™ Brush Collection

Brush Set:

#1-FACE POWDER

The large powder brush is perfectly shaped to apply SeneDerm® Translucent Powders or Bronzing Powders. The sculpted brush head allows for a more precise placement to specific areas when needed.

#2- BLUSH / CONTOUR

This natural brush is sized to perfectly shape the cheek bone. The medium sculpted head provides softness in application while offering durability.

#3- EYESHADOW / CONCEALER

The tapered, oval tip brush gently blends eye color. Create a crease with ShadowSense™; use for blending concealers or highlighters in any area of the face.

#4- SHADOW BLENDER

Soften any look with this amazing blending tool. Perfect for Pearlizer application in key spots to highlight and brighten with this professional tool.

#5- DETAIL / SMUDGE BRUSH

Define brows, eye shape or create detailed lining with this brush. This unique smudge tool is a natural brush created for adding depth close to the lash line and in the corner of the eye or for brows. The long-handled brush has short bristles that form a rounded tip.

#6- TWO-PIECE SABLE DEFINING BRUSH

This pull-apart two-piece tool gives you confidence to precisely place products. Use to apply highlighters, ShadowSense™ as a liner, or concealers to hard to reach areas of the face.

#7- FOAM APPLICATOR

A soft-tipped sponge applicator for applying cream, liquids or powder.

#8- BROW & LASH GROOMER

Stiff bristles on one side to groom brow hairs and a hard lash comb on the other side to clean and define lashes.

Basic Brush Care Tips:

- Always cleanse in the direction of the hair. Never “swirl” or harshly rub brushes on any surface.
- Cleanse as needed in SeneGence® Shampoo, Body Cleanser, or Fooops! SenseCosmetics™ Color Remover with warm water and gently squeeze water through the hair - go from base to tip ... and rinse thoroughly.
- Shape and allow to air dry on a flat surface - do not stand brushes on end to dry.
- If used daily, clean your brushes once a week for longevity and freshness.
- Never share brushes with different clients unless the brushes are first cleansed.
